

COVID-19 Pandemic Patient Disclosure and Dental Treatment Consent Form

Name: _____

This patient disclosure form seeks information from you that we must consider before making treatment decisions in the circumstance of the COVID-19 virus.

A weakened or compromised immune system (including, but not limited to, conditions like diabetes, asthma, COPD, cancer treatment, radiation, chemotherapy, and any prior or current disease or medical condition), can put you at greater risk for contracting COVID-19. Please disclose to us any condition that compromises your immune system and understand that we may ask you to consider rescheduling treatment after discussing any such conditions with us.

It is important that you disclose to this office any indication of having been exposed to COVID-19, or whether you have experienced any signs or symptoms associated with the COVID-19 virus.

- I understand that air travel significantly increases my risk of contracting and transmitting the COVID-19 virus. And the CDC recommends social distancing of at least 6 feet for a period of 14 days to anyone who has, and this is not possible with dentistry. _____ (Initial)
- I understand the COVID-19 virus has a long incubation period during which carriers of the virus may not show symptoms and still be highly contagious. It is impossible to determine who has it and who does not given the current limits in virus testing. _____ (Initial)
- Dental procedures create water spray. It is unclear as to how long the ultra-fine nature of the spray may linger in the air, which can transmit the COVID-19 virus. _____ (Initial)
- I fully understand and acknowledge the above information, risks and cautions regarding a compromised immune system and have disclosed to my provider any conditions in my health history which may result in a compromised immune system. _____ (Initial)

By signing this document, I acknowledge that the answers I have provided above are true and accurate. I knowingly and willingly consent to have dental treatment completed during the COVID-19 pandemic.
